هلدینگ سعادت
SAADAT HOLDING

Saadat Tawan Sadegh Engineering Company now is one member of Saadat Holding, which benefits from experts and experienced engineers, is willing to improve its excellent position in the region of Middle East.

Founded in

250 expert personnel

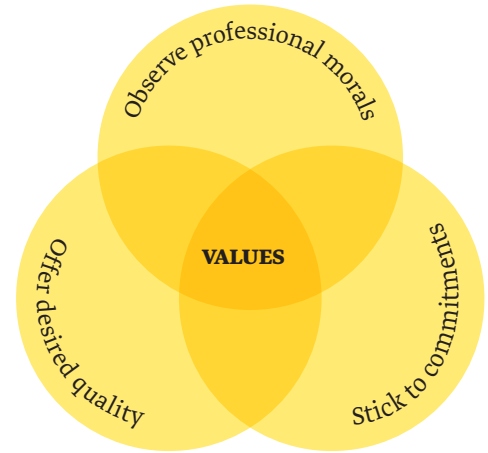

50 logistic equipments

To achieve efficiency goals, this company considers excellence innovation and improve implementation projects' quality.

Construction Projects Groups

Water and wastewater	Railway transportation	Housing	Executive Units
Dam construction	Urban train	Mass housing	
water storage	Railway	Infrastructure and landscaping	
Pipelines and drainage networks	Metro	Entertaining, Cultural and sport complexes	
Water and wastewater Treatment		Airport	
Water pipeline		Road, highway and tunnel	
Wastewater collect and transmission lines		Non-level intersection	

Managers' specialty and engineers technical knowledge, allows us provide excellent implementation for your projects

Planning

Engineers and experts study solutions to implement the projects then they start planning.

1

Desired Quality

Executed project with desired quality, is a lasting project for people's usage.

7

Consulting Group

Consulting support group will present in the work site to support and give necessary consulting.

6

HSE

Project will be executed by observing the safety and health principles.

5

Project Design

Engineers and experts will do the designs of the projects before start of implementation of projects.

2

Project Calculations

Projects' design calculations can guarantee the projects' long term application.

3

Project Execution

Using the best engineering methods, along with understanding the latest rules and regulations for better quality in projects.

4

SAADAT INTELLIGENT ENGINEERING
